WHO SH

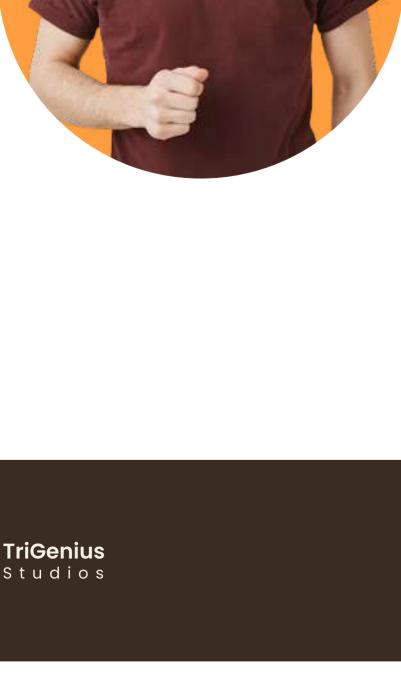

world full of possibilities!

You can call me Alex, I'm passionate about videogames, programming and

I'm also known as jhojocor, I love video games, programming, design and

worlds and experiences that make a difference and leave a mark in the hearts

of those who enjoy them. The journey is just beginning, and I'm excited for all

### design. My interest in programming began in high school, when I decided to take a technical course in "Multimedia Design and Integration". This experience introduced me to the fascinating world of digital creation and since then, I have been immersed in developing my skills. I love to combine both elements to create interactive and visually appealing experiences.

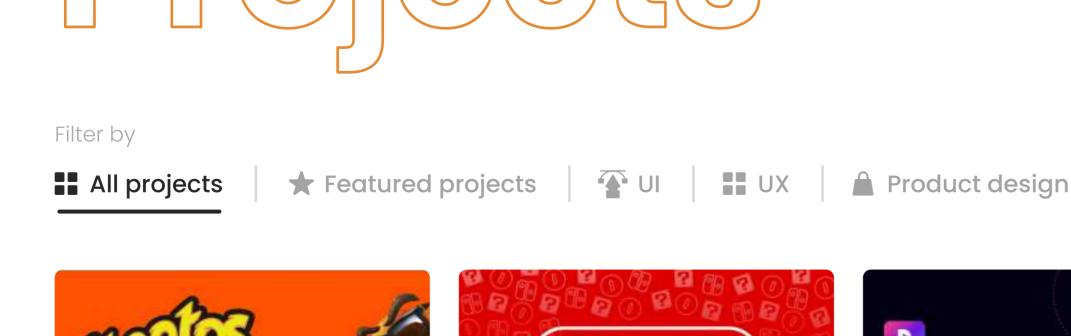

Alexander Rueda

projects to fruition. I look forward to sharing some of my creations with you!

I'm constantly looking for new ways to merge my love for videogames with my

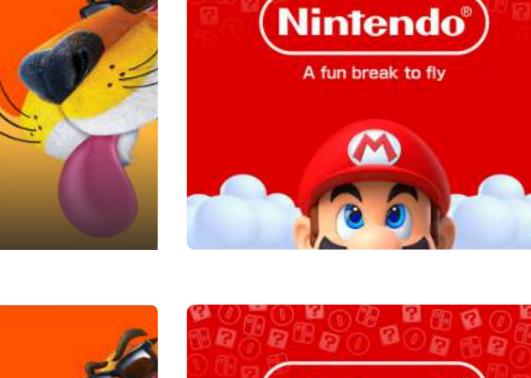

programming and design skills, with the goal of bringing creative and exciting
